

**VISUAL EDWARDS: "Resurrection, body, atoms" - RBoss**

*"Miscellanies," cc. RESURRECTION. Why is there not the same kind of reason why the same body shall rise, as that Eve should be made of Adam's rib? ... That little part of Eve that was made of the atoms of Adam's rib, was sufficient to make it be said that she was made of the rib ... I am not disputing for anything that is uncertain about it but that which is most certain, and that is, that there is no need of believing that the body that shall rise will not be the same that fell.*
